

Dream-like simulation abilities for automated cars

DREAMS4CARS

Grant Agreement No. 731593

Deliverable: D7.5 – Data Management Plan (initial release)
Dissemination level: CO - Confidential
Delivery date: 30th June 2017
Status: Final

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 731593

Deliverable Title	Data Management Plan (initial release)		
WP number and title	WP 7 - Management		
Lead Editor	Hermann Heich , Heich Consult		
Contributors	Mauro Da Lio, UNITN		
Creation Date	16 th June 2017	Version number	V 1.0
Deliverable Due Date	30 th June 2017	Actual Delivery Date	30 th June 2017
Nature of deliverable	<input checked="" type="checkbox"/>	R - Report	
	<input type="checkbox"/>	DEM – Demonstrator, pilot, prototype, plan designs	
	<input type="checkbox"/>	DEC – Websites, patents filing, press&media actions	
	<input type="checkbox"/>	O – Other – Software, technical diagram	
Dissemination Level/ Audience	<input type="checkbox"/>	PU – Public, fully open	
	<input checked="" type="checkbox"/>	CO - Confidential, restricted under conditions set out in MGA	
	<input type="checkbox"/>	CI – Classified, information as referred to in Commission Decision 2001/844/EC	

Version	Date	Modified by	Comments
0.5	16 th June 2017	Hermann Heich	Initial draft stemming from project progress up to M06
1.0	27 th June 2017	Hermann Heich	Final revision on comments from partners

Executive Summary

The Commission is pursuing the strategy on Open Access to Scientific Publications and Research Data. In Horizon 2020 each project should implement this strategy and make the results of their research available to the scientific community. Dreams4Cars is fully committed to this strategy and is prepared to organise the collection, storage and curation of research data generated during the project. This will be organised and implemented through the Data Management Plan (DMP).

This initial release of the DMP remains rather generic but is the starting point for the full development of the DMP. Some parts of the work that will have an influence on the data collection and the DMP are not finished yet, or haven't started.
